## Lisa iRadio

*Listen to free internet radio on a professional audio player.*

Streamit's flagship business audio player, the Lisa LCD – Ultimate is highly versatile and suitable for many applications. Frequently used in the past as an internet radio receiver with varying levels of success due to the bad quality and availability of the audio streams. Looking for a way to guarantee qualitative internet radio for our customers we partnered with **airable**, the leading internet radio catalogue provider, and added support for their radio service to Claudio. The Lisa iRadio was born!

### Internet radio stream

Lisa iRadio transforms your professional audio player into an internet radio receiver, connecting you to a vast array of radio stations from around the world. This extensive stream catalogue is carefully curated, comprising only functioning streams, compatible with Lisa. The integration with Claudio ensures that your player's configuration is always up-to-date, effectively eliminating issues with broken links.

Key enhancements to Lisa iRadio and Claudio include:

1. Remote management of multiple radios: This feature enables efficient management of several radios from a single point, simplifying the operation for users overseeing multiple devices.
2. Scheduling: Users can schedule their radios to turn on or off and select specific stations to play at certain times. This function is ideal for setting the right atmosphere at different times or for various events.
3. Messaging capabilities: The system allows for the broadcasting of custom messages, such as opening, closing, or pause announcements. This feature is particularly useful in a business setting where personalized audio messages can significantly enhance the customer experience.

## Features

- Tens of thousands of free internet radio stations from around the globe
- Professional grade audio player
- Versatile provisioning platform
- Automated update of player configuration on stream changes
- Control multiple radio stations from one location.
- Schedule radio on/off times and station selection
- Play custom messages for openings, breaks and closings

Claudio platform
